

LOADMAKER

From one extreme to another Cargolite performs...

Cargolite is a lightweight flexible bulkhead suitable for panel van/home delivery vehicles

- Constructed from a PVC skin bonded to insulating foam and a flexible high memory, high strength Veralite core
- Side seals are individually sealed to prevent moisture migration to the core in the event of side seal damage
- Side, top and bottom seals offer compression to reduce the chance of temperature leakage
- Corners are double reinforced 100% PVC construction for increased life

Fan kit

- Thermostatically controlled fan complete with suzie lead
- Air flow of 400cm³/hour
- Digital temperature read-out
- Adjuster to set temperature to required level

LOADMAKER

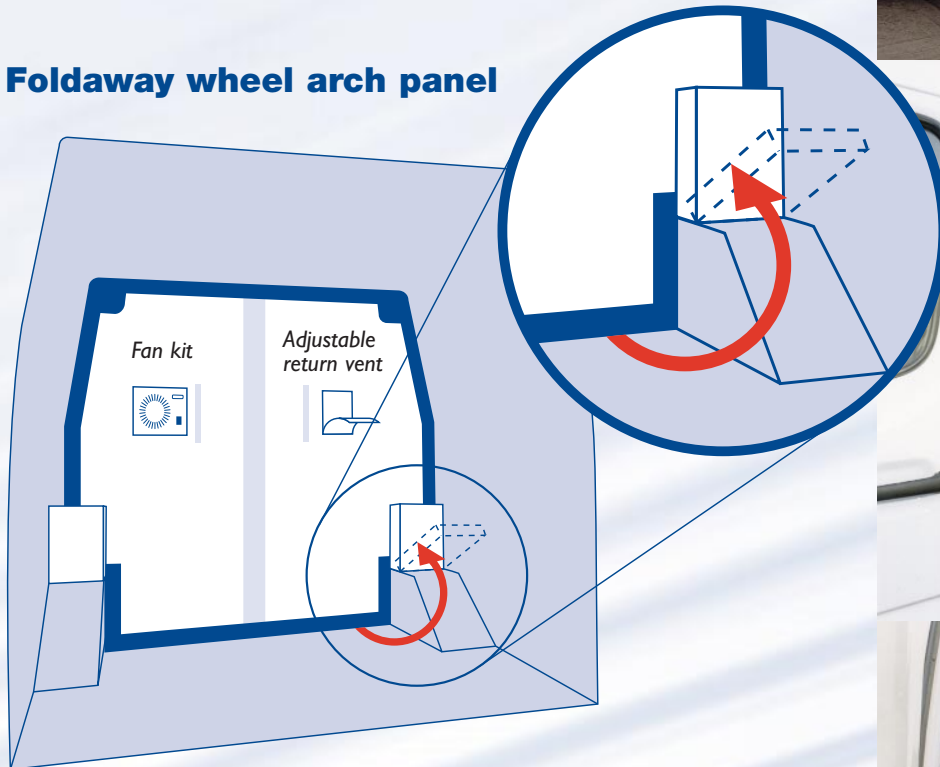

From one extreme to another Cargolite performs...

Cargolite features

- Handles are fitted as standard to facilitate ease of handling
- Light to handle, weighing in at only 15kg (depending on specification)
- Every unit made to measure
- Available in single span or bi-fold form
- Options include polar wear strip, moveable wheel arch flaps, restraining straps, temperature controlled fan kit

Foldaway wheel arch panel
